Dunvant Quarry	SS 59621 94059	51.62778	-4.029495
Engine Room Slab	SS 45060 84994	51.542514	-4.235688
Evening Wall	SS 40417 87707	51.565597	-4.303813

These pages are a collection of grid references and latitude/longitude for most of the crags on Gower.

The grid references, you will notice, are 10 figure; this means they are, in theory at least, accurate down to 1 m².

The grid reference should take you pretty close to the crag, usually the bottom of the crag, but sometimes the top.

Use them this way taking **Bacon Hole** as an example:

Bacon Hole is SS 56036 86833

Think of it as: SS **56036 86833**

or **SS 530868**

This six figure grid reference is accurate to within 100 metres or so and good enough to get you to the crag.
